

BRIEF COMPANY PROFILE

Located in Monza, very close to Milan, I.T.A.S. S.p.A. covers an area of almost 8500 m², subdivided into various sectors. On these premises the most advanced technologies for the planning and construction phases are applied in accordance with the strictest international rules.

I.T.A.S. S.p.A., established in 1976, offers the sort of knowledge which exceeds its working years, thanks to the experience of its technical staff.

In order to offer a good flexibility according to market needs and, at the same time, a high specialisation in each specific field, I.T.A.S. S.p.A. has four divisions:

- **Ecology**
- **Petrochemical**
- **Combustion**
- **Automation**

In order to simplify the separation of information and to clarify the procedures for all the divisions, I.T.A.S. S.p.A. has managed to attain on its own an information system which can satisfy all its exigencies.

I.T.A.S. S.p.A. is above all an engineering Company, which has also developed in-depth experience in building its own plants. In this way I.T.A.S. S.p.A. guarantees to the customer the constant and continuous quality of its products ranging from the engineering project to the after-sales service to which I.T.A.S. S.p.A. dedicates particular effort.

I.T.A.S. S.p.A. is expanding its activities on the International market place and now has subsidiary offices in Germany and Spain as well as agents worldwide.

COMPANY IDENTIFICATION

DATA

Name : I.T.A.S. S.p.A. Impianti Termotecnici Applicazioni Speciali

Established : 1976

Share Capital : EURO 258.250,00

Registered Office : Via Metauro 5 , 20052 Monza (MI) Italy

Main Office : Via Metauro 5 , 20052 Monza (MI) Italy

Telephone : +39-039-27331

Telefax : +39-039-745077 (For contacting the Service Department, please, dial +39-039-741149)

E-MAIL : info@itas.com

Website : www.itas.com

Fiscal code : 00168830057

Vat Code : IT00677710964

Quality Certification : Certificate No. CERT 00341-94-AQ-MIL-SINCERT issued by Det Norske Veritas. ISO 9001:2000

R.E.A. : Nr. 1012706

Subscription to other associations : National Fire Protection Association USA)
: American Chamber of Commerce in Italy
: Ass. Industriali Monza e Brianza
: Consorzio Export Monza e Brianza
: Associazione Tecnica Italiana del Gas
: U N I - Ente Nazionale Italiano di Unificazione

INVOICED AMOUNT

For the year 2005	EURO 18.225.000,00
For the year 2006	EURO 19,142,000,00
For the year 2007	EURO 23.645.000,00
For the year 2008	EURO 21.245.000,00

INFORMATION ON BANKS

Please find below the names of some banks with which I.T.A.S. S.p.A. usually works:

- Banca Intesa	- Monza
- Banca Popolare Antonveneta	- Monza
- Banca Nazionale del Lavoro	- Monza
- Banca Popolare di Milano - Ag. 122	- Monza
- Unicredit Banca	- Monza
- Banca Popolare Monza Brianza	- Monza

PRODUCTS

With regard to the products manufactured, some are:

Ecology Division

- Emission Treatment (Vapours, liquids and gases)with:
- Heat Recuperating Oxidisers
- Catalytic Oxidisers
- Heat Regenerating Oxidisers
- Heat Regenerating and Catalytic Oxidisers
- Wet Removal Process
- Solvent Recuperation by Activated Carbons
- Rotating Concentrators
- DeNOx systems

Combustion Division

- **Main Fields of Application:**
- | | |
|-------------------|--------------------|
| Metal | Steel |
| Ceramic | Bricks |
| Surface treatment | Packaging printing |
| Graphics | Textiles |
| Paper | Pharmaceutical |
| Co-generation | Agriculture |
| Food | |
- **Air Heaters**
 - Direct fired air heaters (oil & gas)
 - Indirect fired heaters incorporating heat exchanger
 - Pressurised
 - Induct
- **Burners**
- **Dry Charge Battery Ovens**

Petrochemical Division

- All kinds of elevated, ground and conventional flares
- Bio-Gas Flares
- Burn Pits
- Vent and Snuffing Systems
- Off-shore Equipment
- H₂S and Acid Gas Technologies
- Flare tips including non-smokeless, smokeless, air blown, sonic and other technologies
- Burners for petrochemical furnaces, horizontal and vertical types of gas oil and combination (low emissions); natural and forced draught burners, down firing and vertical, horizontal and flat flame
- Thermal Oxidisers (Incinerators)
- Flare Systems Components including:
 - Water Seals
 - K.O. drums
 - Air infiltration device
 - Dynamic and molecular seals
 - Ignition and control systems

Automation Division

- Electro-Mechanical Panels
- Programmable Logic Panels
- Fail Safe Burner Management System
- Continuous Adjusting of Process Parameters
- Supervision Systems
for local monitoring and distribution of ITAS plants (INTRANET and INTERNET) with many options as for example:
 - Process data history
 - Real time process and production data distribution also on local networks
 - Digitalised image control and diagnostic also from Web Cam
 - Remote access systems with reproduction of all local functions and controls
 - Remote scheduled and emergency services
 - System may be integrated into local company networks

FACTORY

Please find below the list of the areas included in the property of ITAS :

F U N C T I O N	P L A C E	A R E A m²
Offices	Monza	1450
Laboratories	Monza	660
Workshop	Monza	1100
Covered Warehouse	Monza	700
Service area	Monza	380
Parking area	Monza	2400
Green area	Monza	2150
